

## List of tables

### Chapter 1

**Table 1.1:** Table outlining specific hypotheses tested at field sites in the Faroe Islands.

### Chapter 3

**Table 3.1:** Comparisons between oceanic island and continental biota. After Cronk (1996).

**Table 3.2:** Comparisons between low/mid latitude island and high latitude island biota. Adapted from Cronk (1996) by A. Dugmore (*pers.comm.*).

### Chapter 4

**Table 4.1:** Dates for human impact on the landscapes of the North Atlantic region, based on Mesolithic artefacts together with radiocarbon dates of the first cultivated crops on the Faroe Islands. Adapted from Hannon *et al* (2001).

**Table 4.2:** Ærgir (shieling) sites and presumed ærgir sites surveyed during 1989. Adapted from Mahler (1993).

### Chapter 6

**Table 6.1:** Key and detailed description for the Hov catchment landscape unit mapping presented as Figure 6.1.

**Table 6.2:** Key and detailed description for categories defined on the Sandoy and Hov land cover classification maps presented as Figures 6.9 and 6.11.

**Table 6.3:** Summary of archaeological structures recorded in the Hov catchment.

**Table 6.4a:** Summary of *ból* recorded in specific areas of the Sandoy outfields.

**Table 6.4b:** Summary of *kráir* and *torvhús* recorded in specific areas of the Sandoy outfields.

**Table 6.5:** Table detailing interviews made with Faroese farmers on Sandoy.

**Table 6.6:** Extracts from Føroya Búnaðarfelag (1926) *Búnaðartíðini* (farming times) 7/8. Published in July/August 1926 and details land values and stock and slaughter rates for the outfields belonging to the villages of Sandur (Sandoy) and Hov (Suðuroy).

**Table 6.7:** Uncalibrated and calibrated dates obtained from Hov samples.

**Table 6.8:** Uncalibrated and calibrated dates obtained from Sandoy samples.

## Chapter 7

**Table 7.1:** Summary of the three phases of change as identified from the stratigraphic profile data, with key dates and associated changes in the sediment profiles.

## Chapter 8

**Table 8.1:** Comparisons and differences in natural and cultural factors between Greenland, Iceland, the Faroe Islands and Norway.

## Chapter 9

**Table 9.1:** The thesis objectives and how they were achieved.

## Appendix A

**Table A.1:** Sandoy archaeological structures and GPS co-ordinates.

## Appendix B

**Table B.1:** Interview framework.
